

Chapter 11

Pg. 11-31. Bottom of page - Create a 3 view drawing of the Dryer Housing from the model created in the chapter on your template. Do not dimension the drawing. Include a small isometric view in the top right corner of the drawing area.

Save as Dryer Housing.

Pg. 11-33, Exercise 1 - Create a fully dimensioned drawing of the Motor Housing from the model created on your template. Use as many views as you feel are necessary to fully describe the part with no redundant dimensions. Include a small isometric view in the top right corner of the drawing area.

Save as Fig. 11-1.

Pg. 11-34, Exercise 2 - Create a fully dimensioned drawing of the part from the model created on your template. Use as many views as you feel are necessary to fully describe the part with no redundant dimensions. Include a small isometric view in the top right corner of the drawing area.

Save as Fig. 11-2.

Pg. 11-34, Exercise 3 - Create a fully dimensioned drawing of the part from the model created on your template. Use as many views as you feel are necessary to fully describe the part with no redundant dimensions. Include a small isometric view in the top right corner of the drawing area.

Save as Fig. 11-3.

Pg. 11-35, Exercise 4 – Follow the directions and save both parts to your folder.
